Idaho AGC Member Announcement

SEPTEMBER

August 30, 2011 (Meridian, ID) – Stephen Bauman won the first ever [Western States Rodeo](#) championship on August 27, driving away with the 2011 Ford F-250 pickup truck grand prize and earning the title of best heavy equipment operator in the territories Western States serves. Bauman also won a Cat® 226B3 skid steer for his sponsoring company; Pipe of Washington, Inc. Finalists were split into groups on random draws for the first four events, which included a Cat 420 Backhoe tire-stacking event with more tires, a more complex Cat 299 CLT (compact track loader) obstacle course and Cat 320 Excavator and Cat 950 Wheel Loader challenges with larger equipment and additional elements that involved engaging and disengaging buckets and other fork attachments. After the four initial events, the leaders of each included:

Cat 420 Backhoe Challenge: Cory Siderius, Siderius Construction (Kalispell, MT): 1:00.84

Cat 320 Excavator Challenge: Joe Street, Frontier Site and Stone (Missoula, MT): 2:00.00

Cat 299 CLT Challenge: Tyler Crofts, McAlvain Construction (Boise, ID): 1:14.89

Cat 950 Wheel Loader Challenge: Tyler Crofts, McAlvain Construction (Boise, ID): 2:00.84

Cat 160 Motorgrader Challenge: Cwentin Clifton, Pipe of Washington Contracting (Pasco, WA): 2:59.30

Just Released!

Project Delivery Systems for Construction-Third Edition explores traditional and alternative project delivery systems including Design-Bid-Build, Design-Build, Construction Management At-Risk, Integrated Project Delivery, and more.

New chapters include:
Procurement Options
Basis of Reimbursement
Integrated Project Delivery

Educate your team with real-life examples. Each chapter includes case studies and self-tests which create the framework for discussion and promote a better understanding of construction project delivery.

This brand new edition covers important topics such as management approaches, procurement options, basis of reimbursement, roles and responsibilities, Building Information Modeling, lean construction, and sustainability, as they relate to various project delivery systems.

Place your order today! This publication is a must-have for contractors who want to ensure the selection of the most appropriate project delivery system for the best possible project outcome.

Project Delivery Systems for Construction-Third Edition
