

# 2015 National AGC Safety Awards

## Program Description

### Why You Should Participate:

The National AGC Safety Awards (NASA) program has been an ongoing effort since 1991 to offer AGC members an opportunity to evaluate their safety record. Participating contractors receive a confidential printout to compare their company's safety statistics with similar size and type AGC contractor members both locally and nationally. NASA provides a great opportunity for contractor members with excellent safety records to compete for nationally recognized awards. Additionally, this information can be used to assist in determining if additional accident prevention and loss-control measures are necessary.

### Who Can Participate?

AGC contractors **with direct-hire, job-site craft labor** are eligible to compete in one or more of the following categories:

- Building
- Highway
- Associate/Specialty
- Federal & Heavy
- Utility Infrastructure

### How the Program Works:

This program is similar to the Bureau of Labor Statistics and Occupational Safety and Health Administration (BLS-OSHA) recordkeeping systems.

The data is tabulated to produce total lost workday case incident rates (excluding restricted workdays). The formula for computing "incident" is structured to multiply the incident cases involving days away from work (N) times 200,000. The resulting product is then divided by the work hours of exposure (WH). The formula is the days away case incident rate.

The formula follows:

$$\text{Days Away, Case Incident Rate} = \frac{N \times 200,000}{WH}$$

(WH) is the number of work hours for the calendar year 2015 (including office hours). N is the number of days-away-from-work cases, which represents the number of cases resulting in days away from work, but does not include job transfer or restricted activity. N is obtained from the total amount of entries recorded in the Number of Cases section (H) of the OSHA form 300A.

## **2015 National AGC Safety Awards**

### **Program Description Continued**

The completed OSHA 300A Summary of Work-Related Injuries and Illnesses provide the information needed for contractor participation in the NASA Program. Information on days-away-from-work cases is found in section (H), fatality information can be obtained from the number of cases section (G) and the work hours can be found in the establishment information section.

#### **What a Chapter Must Do to Participate:**

Collect the completed NASA participant forms and complete the electronic form by **February 8, 2016**. Submit the electronic application to [vohrar@agc.org](mailto:vohrar@agc.org) no later than **February 8, 2016**. Electronic Applications received after the February 16<sup>th</sup> deadline will be submitted for future awards, but will be ineligible for a 2015 award.

**Chapter contacts must verify that each of their contractors has the correct information, including the items listed above, before submitting their safety data form. If something is incorrect, contact Raj Vohra at AGC to update the records before submitting the form.**

#### **What a Contractor Must Do to Participate:**

National AGC contractor members will receive a NASA form or application from their home AGC Chapter. Transfer the appropriate information from the OSHA form 300A, including the work-hour data, to the NASA participant form or application and provide it to your local Chapter by **their deadline**.

#### **Award Distribution:**

AGC will send all Chapter and Member awards to the home Chapter for later distribution.

Deadline: February 5, 2016

## 2015 National AGC Safety Awards Participant Form

Complete your OSHA form 300A "Summary of Work-Related Injuries and Illnesses" for 2015.
